3D Eco-Wall Brand PRONEL

친환경 플라스틱 입체 패널 브랜드, 프로넬

PRONEL

(주) 아키플랜트 | Archi-Plant Inc.

제품 소개 | Product

친환경 플라스틱 입체 패널 "프로넬(PRONEL)"는 500×500×15mm 규격으로 다양한 3D 패턴을 가진 유니크하고 모던한 새로운 개념의 벽 및 천정 마감재입니다.

기존의 마감재 대비 내오염성, 내구성, 내수성등이 향상 되었으며, 정밀한 마감면 확보 및 DIY 시공이 가능합니다. 다양한 색감과 질감의 표현이 가능하여 기존의 밋밋했던 공간에 풍성한 공간감을 제공할 수 있는 차세대 3D 패널입니다.

'PRONEL' is an eco-friendly plastic 3D panel for the next-generation interior design. We are blending our own innovative design concepts with the panels for ceilings and walls.

We also do care functionality. Compared to the conventional interior panels, our products show outstanding fouling resistance, durability and water resistance capabilities. A more secured finish and DIY option(colors and textures) are also available to provide customers with a power of decorating beautiful and safe home.

프로넬의 기능성 | PRONEL's Functionality

1 난연성 | Flammability

불에 잘 타지 않습니다

시공 가이드 | Guide

1 Let your panels acclimate for 48 hours

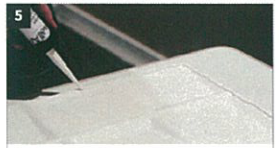

2 Clean your wall, make it dry and free from grease & dust

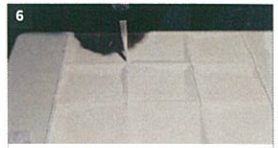

3 Cover your floor with a masking film or masking paper

4 Measure and make a mark for your starting point

5 Apply adhesive to all 4 sides of the back of your panel

6 Apply 2 more vertical lines of adhesive where possible

7 Install and apply equal pressure by using your fingertips

8 Use a tile spacer to position each next panel

9 Remove the tile spacer when surrounded by panels

10 After each panel installed clean the joints using strong paper towel

11 Spray or roll paint your wall (pay extra attention to the joints)

12 After 24 hours apply a second layer of paint to your wall
